

## FOOD ADDITIVES

The range of food additives from Eco Agri is sourced from first class producers with a proven track record in the European and North American industry. Our additives are used for:

- Flavoring
- Protection
- Fortification
- Nutrition
- Functionality

**Ascorbic Acid & Sodium Ascorbate** a source of vitamin C that acts as antioxidant.

**Caffeine Anhydrous** an additive used in energy drinks, used up to 88mg per serving.

**D-Glucuronolactone** a popular ingredient in energy drinks that supports in detoxifying the human body.

**Taurine**, an amino acid commonly used in energy drinks, can improve cognitive function, enhance sports performance. Taurine is also known to act as an antioxidant.

**Potassium Sorbate** an effective preservative used in food and drinks. The product inhibits molds and yeasts in many foods, such as cheese, wine, yogurt, dried meats, apple cider, soft drinks, and fruit juice.

**Sodium Benzoate** is used to prevent spoilage from harmful bacteria, yeasts, and molds. It also helps maintain freshness in food by helping to slow or prevent changes in color, flavor, PH, and texture.

**Citric Acid**, a flavoring and preservative in food and beverages. It is one of the most used food additives in the world. Citric acids is used in carbonated drinks, juices, powdered beverages, candies, frozen foods, meat etc. Available as Anhydrous and Mono hydrate in different mesh sizes.

**DL Malic Acid**, an acidulant for drinks (including lactobacillus drinks, milk drinks, carbonated drinks) and confectionary. Malic acid is as well used as enhancer for fruity and sweet flavors.
